Selection Qualification

Both selection matches listed below will be open to all USA Shooting members. Athletes must compete in both selection matches to be eligible for nomination.

Selection Match 1

Selection Match 1 will consist of two courses of fire for a total of 250 targets. At the conclusion of this selection match a single final will be held for each event in which the top six competitors based on qualification score make the final. Should there be a tie to get into the final, the tie will be broken by a single shot shoot off until an athlete misses and the other makes their shot.

Finalists will shoot the 2020 ISSF format consisting of 50 shots in trap and 60 in skeet with eliminations. Once completed bonus points will be awarded based on the finishing position as follows:

- 1st place = 3 points
- 2nd place = 2 points
- 3rd place = 1 point
- 4th – 6th place = 0 points

These final's points will be added to the qualification score to determine a Selection Match 1 total.

Selection Match 2

Selection Match 2 will consist of two courses of fire for a total of 250 targets. At the conclusion of the qualification stage for this match, the top six competitors based on the Selection Match 2 Qualification only will move into the final for Selection Match 2. Should there be a tie to get into the final, the tie will be broken by a single shot shoot off until an athlete misses and the other makes their shot.

Finalists will shoot the 2020 ISSF format consisting of 50 shots in trap and 60 in skeet with eliminations. Once completed bonus points will be awarded based on the finishing position as follows:

- 1st place = 3 points
- 2nd place = 2 points
- 3rd place = 1 point
- 4th – 6th place = 0 points

At the conclusion of the Selection Match 2 final, the Match 1 Qualification Score plus the Match 1 Finals Points will be added to the Selection Match 2 Qualification Score plus the Selection Match 2 Finals Points to create a Combined Score Ranking List from both Selection Matches.

2023 World Championships Finishing Position

In addition, an athlete's 2023 World Championship Finishing position, based on the result of the finals, will be factored into the ranking list. An athlete can earn performance points as follows:

- Gold – 6 points
- Silver – 5 points
- Bronze – 4 points
- 4th – 3 points
- 5th – 2 points
- 6th – 1 point

Combined Score Ranking List

The Combined Score Ranking List will be made upon the conclusion of Selection Match 2 and will use the following calculation:

Selection Match 1 Qualification + Selection Match 1 Finals Points + Selection Match 2 Qualification + Selection Match 2 Finals Points + 2023 World Championships Performance Points.

The Combined Score Ranking List will be used to determine Quota slot allocation for the 2024 Olympic Games.

The highest ranked athlete on the Combined Score Ranking List, and who is eligible for the Olympic Games, will be offered a Quota slot for his/her event. If the athlete declines his/her Quota slot, the next highest ranked athlete on the Combined Score Ranking List, and who is eligible for the Olympic Games, will be offered the slot until all slots are filled.

If there are two Quota slots available for Team USA, the next highest ranked athlete on the Combined Score Ranking List, and who is eligible for the Olympic Games, will be offered a Quota slot for his/her event. If the athlete declines his/her Quota slot, the next highest ranked athlete on the Combined Score Ranking List, and who is eligible for the Olympic Games, will be offered the slot until all slots are filled.

Should there be a tie in the Combined Score Ranking List, down to 6th place, the tie will be broken immediately following Selection Match 2 finals by way of a full

qualification round between the tied athletes. The winner of this round will be awarded the higher ranking in the Combined Score Ranking List.

The athletes who have accepted a Quota spot will be nominated to the 2024 Olympic Team.

1.3.2 Shotgun Mixed Team

Per the ISSF Qualification System, athletes for the Mixed Team Event must come from the individual entries in the men's and women's skeet event. For the 2024 Olympic Games, the Shotgun mixed team event will be Skeet. Therefore, the two athletes competing in the Mixed Team Skeet Event must be the athletes nominated to the team using the above Quota Place allocation methods outlined in 1.3.1. The highest ranked male and female athlete from the Combined Score Ranking List will be selected to the Mixed Team Skeet Event for Team 1. Should USA Shooting be able to enter in two mixed teams, the second highest ranked male and second highest female from the Combined Score Ranking List will be selected to the Mixed Skeet Event for Team 2.

1.3.3 Qualification Ranking for the Olympic Games (QROG) By Name Quota

Per the ISSF Qualification System, all Quota slots will be allocated to the NOC, except when Quota slots are achieved from the Qualification Ranking for the Olympic Games (QROG). These Quota slots will be awarded to individual athletes and may not be changed by the NOC.

The final QROG list, which will be produced and published on 9 June 2024, will be used to allocate one Quota slot for each individual shooting event.

Quota slots will be awarded to the highest ranked athlete from the QROG having not yet already qualified in any event and provided the NOC of the same athlete has not already achieved more than one quota place in that event.

If an athlete who is awarded a By-Name Quota slot from the QROG is also the highest ranked athlete from USA Shooting's Combined Score Ranking List, that athlete will be awarded the By-Name Quota slot and then the next highest ranked athlete from USA Shooting's Combined Score Ranking List will be awarded the Quota slot.

Should the QROG be used for USA Shooting and the athlete who is awarded a QROG Quota slot accept the slot, he/she will be nominated to the 2024 Olympic Team.
